FALSHRUTI BALSARAF

Senior Frontend Engineer

Pune, India +91 8806902013 falshrutibalsaraf007@gmail.com linkedin.com/in/falshruti-balsaraf-844788193

PROFESSIONAL SUMMARY

Full Stack Engineer with 5 years of hands-on experience specialising in React.js SPA development, JavaScript/TypeScript, and REST API integration. Proven track record delivering scalable eCommerce and fintech platforms with responsive, accessible UIs, secure OAuth/OIDC authentication flows, and CI/CD automation. Experienced in Agile cross-functional teams — from sprint planning through production deployment — with a genuine passion for digital transformation, clean code, and continuous improvement.

TECHNICAL SKILLS

Frontend	React.js (SPA / Hooks), JavaScript ES6+, TypeScript, HTML5, CSS3, Bootstrap, Vue.js, Responsive Web Design
Backend	Laravel (PHP), Node.js, CodeIgniter, RESTful APIs, Role-Based Access Control (RBAC)
Auth & API	OAuth 2.0, OIDC, JWT, API Integration, Postman, Third-party Payment Gateway Integration
DevOps / CI-CD	Git, GitHub, AWS (S3 / Deployment Pipelines), Microsoft Azure, CI/CD, Build & Release Management
Databases	MySQL, PostgreSQL, MongoDB — schema design & query optimisation
Tools & Agile	GitHub Copilot, VS Code, Agile/Scrum, TDD/ATDD, Sprint Planning, Code Reviews
Domain	Fintech, CRM systems, eCommerce, E-learning, Healthcare-adjacent platforms

PROFESSIONAL EXPERIENCE

Senior Frontend / Full Stack Engineer | Finlabs India Pvt. Ltd. *2025 – Present*

- Lead frontend development of a multi-module fintech platform (Finexa) using React.js SPAs, JavaScript, and Node.js — driving UI architecture decisions and component design.
- Integrated OAuth 2.0 & JWT-based authentication flows, ensuring secure, standards-compliant user sessions across modules.
- Designed and consumed RESTful APIs with a focus on performance — optimised critical database queries, reducing page load times by ~40%.
- Built role-based CRM dashboards with real-time reporting, lead tracking, and full CRUD modules used daily by sales and ops teams.
- Integrated AWS services (S3, deployment pipelines) to improve infrastructure reliability and support CI/CD automation.
- Collaborated in Agile sprints with product, design, and QA — contributing from planning through production deployment; actively leveraged GitHub Copilot to accelerate delivery.

Full Stack Engineer | Xebec Communication Pvt. Ltd. *2022 – 2024*

- Developed and shipped responsive, cross-browser SPAs and admin dashboards using React.js, JavaScript, HTML5, CSS3, and Bootstrap — eliminating the need for a dedicated frontend resource on most projects.
- Architected RESTful APIs using Laravel and integrated third-party services and payment gateways, maintaining backend response times under 200ms on key endpoints.
- Built data-driven dashboards with reporting views, export features, and CRUD functionality actively used by internal teams.

- Participated in Agile ceremonies, code reviews, and direct collaboration with designers, QA engineers, and external stakeholders.
- Applied responsive web design principles across all deliverables, ensuring consistent UX across mobile, tablet, and desktop.

Software Engineer | **India Active Software Inc. (ICTRD)** *2021 – 2022*

- Delivered backend-driven web applications in PHP, JavaScript, and MySQL for clients across multiple industries, replacing manual workflows with automated data management systems.
- Built admin dashboards, backend modules, and feature enhancements on legacy codebases — developing strong debugging and code-quality instincts.

Web Developer Intern | **Simplex Software Solution** *2020 – 2021*

- Built GIS-based web applications using JavaScript and OpenLayers with real-time location tracking and interactive map features — first exposure to complex frontend state and data-driven UIs.

KEY PROJECTS

Finexa – Fintech Web Platform (React.js, Node.js, Laravel, MySQL, Payment Gateway, REST APIs)

- Built multi-module SPA with secure RBAC authentication, audit-ready data flows, and CRM dashboards; query optimisation cut load time by ~40%.

Custom CRM & Lead Management System (Laravel, React.js, REST APIs, MySQL)

- Role-based CRM built from scratch with automated lead status workflows, real-time reporting, and full CRUD modules — reducing manual sales follow-up effort and improving pipeline visibility for operations teams.

E-Learning Platform (PHP, React.js, REST APIs)

- Developed scalable e-learning app with course management, quizzes, and interactive student/instructor dashboards via end-to-end RESTful API integration.

College Management Portals (CodeIgniter, Laravel, PHP, Payment Gateway)

- Built multi-role portals (attendance, fee, academics) using reusable component architecture and RBAC for long-term maintainability across multiple clients.

eCommerce Storefront & Admin Portal (React.js, Node.js, Laravel, MySQL, Payment Gateway, AWS S3)

- Full-featured eCommerce platform with product catalogue management, cart, checkout, and order tracking. Built responsive storefront in React.js with a powerful admin portal for inventory, promotions, and customer management. Integrated payment gateway and AWS S3 for media storage.

EDUCATION & CERTIFICATIONS

B.E. Electronics & Communication Engineering | Nagpur University *2016 – 2020 | CGPA: 9.04/10*

PHP Developer Certification – Codeocity (PHP, MySQL, AJAX, CodeIgniter, real-world projects)
